CENSUS OF INDIA 1951

PUNJAB

DISTRICT CENSUS HANDBOOKS

VOLUME 10

LUDHIANA DISTRICT

Compiled and Published under the Authority of the Punjab Government.

Printed by the Controller of Printing and Stationery, Punjab, Simla at O. K. Printing Press, Simla, Phone 3282.

PREFACE.

The District Census Handbook is a collection of the following data :—

1. Introduction which deals with the following items :—
   - (*a*) Physical Aspects.
   - (*b*) Geology.
   - (*c*) Archaeology.
   - (*d*) Climate.
   - (*e*) Rain Fall.
   - (*f*) History.
   - (*g*) Population.
   - (*h*) Administration.
   - (*i*) Medical and Public Health.
   - (*j*) Education and Literacy.
   - (*k*) Agriculture and Co-operation.
   - (*l*) Industries
   - (*m*) Local Bodies.
   - (*n*) Rehabilitation of Displaced Persons.
   - (*o*) Places of Interest.

2. District Census Tables (furnishing district data with breakup for Census tracts, within the district). In case of Ludhiana District there are three Tahsil Rural Tracts (Ludhiana Tahsil Rural Tract; Jagraon Tahsil Rural Tract and Samrala Tahsil Rural Tract) and two Urban Tracts (District Ludhiana, Non City Urban Tract and Ludhiana City Urban Tract). There are the following tables for the Ludhiana District :—

   - A-I. Area, houses and population.
   - A-II. Variation in population during fifty years.
   - A-III. Towns and villages classified by population.

A-IV. Towns classified by population with variation since 1901.

A-V. Towns arranged territorially with population by livelihood classes.

B-I. Livelihood classes and sub-classes.

B-II Secondary means of livelihood.

B-III. Employers, Employees and Independent workers.

C-II. Livelihood Classes by age groups.

C-III. Age and civil condition.

C-IV. Age and literacy.

C-V. Single year age return.

D-II. Religion.

D-III. Scheduled Castes and Scheduled Tribes.

D-IV. Migrants and Subsidiary.

D-V. Displaced persons by district of origin, and date of arrival in India.

D-VI. Non-Indian Nationals.

D-VII. Livelihood Classes by educational standards.

E. Summary figures by district.

District Index.

Sorter's Ticket 2.

3. Census Abstracts :—

(*i*) Primary Census Abstracts.

(*ii*) Census Abstracts of Small Scale Industries.

LAKSHMI CHANDRA Vashishta.

LUDHIANA DISTRICT.

Physical Aspects.

Ludhiana is the most south-eastern of the seven districts of the Jullundur Division. Under the (Absorption of Enclaves) Order, 1950, this district has lost 40 villages having an area of 125.6 square miles and has acquired 63 villages from Fatehgarh Sahib district having an area of 55.6 square miles and has thus sustained a net loss of 70 square miles only. The total area of the present Ludhiana District is 1279.0 square miles.

The district is bounded by districts of Ambala on the east, Ferozepore on the west, Jullundur on the north and Patiala and East Punjab States Union on the south. It is divided into three tahsils; Samrala to the east, Jagraon to the west, and Ludhiana in the middle.

The mean elevation of the district is about 800 feet above sea level, at Samrala the elevation is 870 feet, at Ludhiana 806 feet and at Jagraon 764 feet. The district has no very striking natural features. The main physical divisions are a low-lying alluvial tract along the river (Bet) and the uplands (Dhaia)*.

The River Sutlej : The river Sutlej debouches from the Siwaliks just above Rupar some 20 miles east of the boundary of Samrala tahsil, it flows due west along the district for some 60 miles, and turns, as it leaves Jagraon tahsil, slightly to the north towards its junction with the Beas*.

The Budha Nala : Immediately under the high bank along the old course of the Sutlej now runs a perennial stream called the Budha Nala which takes its rise near Chamkaur, in the Rupar tahsil of Ambala, and enters this district under Bahlolpur. Passing just below the town of Ludhiana it flows into the Sutlej in tahsil Jagraon, a few miles east of the Ferozepur border*.

Geology.

There is nothing of geological interest in the district as it is situated entirely on the alluvium.

Archaeology.

The district has few monuments of antiquity. There are a number of mosques and other Muhammaden monuments, none of any great importance. The oldest and most interesting is a

*Reproduced from the Ludhiana District Gazetteer-1904, pages 1 and 2.

building resembling a mosque two miles east of Sohana. It is said to have been built by Mohammad of Ghor in 1191 A. D. There are few Hindu temples of interest. The oldest is the *Math* of Nikka Mal at Hatur which was in existence in the reign of Humayun : there is a temple of Mari Guga at Chhapar, built at the beginning of the nineteenth century, where a great fair is held annually. There are the remains of Sikh Forts at Lalton and Ganjrana. There is a Sikh temple at Machhiwara, the Gurdwara of the Guru Sahib, built by Sodhi Karm Singh to commemorate a visit of Guru Govind Singh; the place of the Sodhis at Machhiwara is now quite a ruin*.

Climate.

The climate in general is that of the Punjab plains. The Siwaliks are too far off to have much effect, and the Ferozepore district acts as a bufer between Ludhiana and the desert of Bikanir; conseqently the hot winds and dust storms, that ravage Ferozepore in the hot weather are not felt with the same severity in this district. Within the district there are considerable variations of climate. The Dhaia is dry and healthy, though it has suffered in both respects from the opening of the canal. The Bet and the uplands, immediately overhanging the Budha Nala, are damp and malarious. The town of Ludhiana is very badly situated in this respect, but Machhiwara Kum and Bahlolpur are even worse*.

Rainfall.

The district enjoys a comparatively good rainfall. The yearly average for the decade ending 1940-49 is shown below for the three tahsil-towns of the district :—

		Inches
Samrala	...	31·66
Ludhiana	...	27·77
Jagraon	...	20·48

It will be seen that Samrala gets a slight advantage from its comparative proximity to the Siwalik, while the shortage in Jagraon suggests the neighbourhood of Ferozepore.

History:—

The district takes its name from its headquarters town, Ludhiana, which owes its origin to the building of a fort during the government of the Lodi Sultans (1451—1526) by

* Reproduced from the Ludhiana District Gazetteer-1940.

one Nihang Khan Lodi. At that time Sutlej flowed at the place where the Budha Nala flows now, just near the fort. As the site was on the main highway from Lahore to Delhi, the town grew in importance. The original habitation was almost under the walls of the fort. During the period of Sikh rule, Ludhiana was not an important place. When the Cis-Sutlej States of the Sikh rulers came under the British protection in 1809, it became a Cantonment. An English force under Col. Ochterloney was stationed here on the frontier of Ranjit Singh's kingdom. The whole area from the fort upto village Rajpura was studded with bungalows and the Rakh was developed into a zoo, enclosed by railings. No trace of the bungalows or the zoo, except a small kiosk-like structure near the present Dayanand Hospital and the ruins of the "Sheesh Mahal" near the King George Memorial Tank, can be seen now.

During the upheaval of 1857, when some revolting troops occupied the fort and were alleged to have been helped by the locals, all houses within 200 yards of the fort were raised to ground and the present site of the town of Ludhiana became inhabited.

The opening of Dr. Brown's Mission Hospital and the Mission School were events of great importance. The hosiery industry and lately the machine parts industry have developed here. The construction of the Model Town and the opening of the Sidhwan branch of the Sirhind Canal are recent developments.

Population :—

The population of the district as censused in 1951 is 808105 and the density per square mile of the district is 632.

The following table shows the variations in population of the district during the past 60 years : —

Year	Persons	Variation	Net variation
1891	648,722	...	..
1901	673,097	+ 24,375	...
1911	517,192	—155,905	..
1921	567,622	+ 50,430	..
1931	672,494	+104,872	..
1941	818,615	+146,121	..
1951	808,105	—10,510	+159,383

The following table shows the density per square mile in the district since 1901.:—

Year	Density	Year	Density
1901	481	1931	481
1911	370	1941	585
1921	406	1951	632

Among the 13 districts of the Punjab, Ludhiana is 12th on the list in order of population. It is, however, 4th as regards density.

The district comprises three tahsils, of which the tahsil of Ludhiana is the most important as well as the most populous. It has a population of 422, 734, which is 52% of the district population. Jagraon stands second and Samrala third with populations of 208,646 and 176,725 respectively. Ludhiana is the most populous urban area in the district with a population of 153,795. The population of Ludhiana town has increased by 42 156 souls since the last census.

The following table gives the pattern of livelihood of the population of this district :—

	Livelihood Class	*Persons*
I.	Cultivators of land wholly or mainly owned and their dependents ...	267,967
II.	Cultivators of land wholly or mainly unowned and their dependents ...	75,086
III.	Cultivating labourers and their dependents	61,603
IV.	Non-Cultivating owners of land, agricultural rent receivers and their dependents	29,171
V.	Production other than cultivation ..	53,860
VI.	Commerce ..	111,142
VII.	Transport ..	2,105
VIII.	Other Services and miscellaneous sources	207,171
	Total	808,105

Administration.

(*a*) *Executive.*

The Deputy Commissioner is the executive head of the district. The district is divided into three tahsils—Ludhiana, Jagraon and Samrala for administrative purposes. Each tahsil is in the charge of a Tahsildar who is assisted by a Naib-Tahsildar. In the Sadar Tahsil there are two Naib Tahsildars.

In the performance of the revenue work of the district the Deputy Commissioner is assisted by a Revenue Assistant, who is also incharge of the Grow More Food work and Consolidation of Holdings. Owing to the rehabilitation work connected with the allotment of land to displaced persons a separate Revenue Assistant has been attached to the District for rehabilitation work. In each tahsil there is also a Naib-Tahsildar for rehabilitation work, who also attends to the Grow More Food work under the supervision of the Tahsildar concerned.

The Deputy Commissioner is also the incharge of the evacuee property in the district. He has been given an Assistant Custodian and a District Rent Officer with sufficient number of inspectors and clerical strength to help him in this work.

The Superintendent of Police is incharge of the Police strength of the district. He has 4 Deputy Superintendents of Police and four Inspectors. There are 12 Police Stations at Ludhiana City, Ludhiana Sadar, Dakha, Jagraon, Sidhwan Bet, Raikot, Dehlon, Sahnewal, Khanna, Samrala, Machhiwara and Khamanon.

There is a District Jail at Ludhiana in the charge of a Superintendent Jail of the rank of an Extra-Assistant Commissioner.

(*b*) *Judicial.*

The District and Sessions Judge is the administrative head of judicial work in the district consisting of ;

i. Civil and

ii. Criminal.

For Civil work there is a Senior Sub-Judge and four Sub-Judges. One of the Sub-Judge is posted at Jagraon and the others are stationed at the headquarters of the district. For Criminal work there are an Additional District Magistrate and 4 Magistrates Class I. All of them are stationed at the head-

quarters of the district but they are required to do important cases in the *thana* concerned and even at the spot.

The Tahsildars and Naib-Tahsildars also exercise magisterial powers of second and third class respectively. The Senior Sub-Judge and one of the Sub-Judge also exercise magisterial powers.

(*c*) *Civil Supplies and Rationing.*

The District Organizer Civil Supplies and Rationing is the Administrative Head of this work. He has a District Food Controller, C. S. D. O. and an adequate strength of clerks, Inspectors and Sub-Inspectors for outdoor and office work.

Medical and Public Health.

The Public Health Staff in this district consists of one District Medical Officer of Health, four District Sanitary Inspectors, 4 Sanitary Supervisors and Public Health gangs.

The Punjab Pure Food Act is enforced in all the towns and District Board Area. Two Government Food Inspectors and two Sanitary Inspectors with powers of Food Inspectors work in the district. They seize samples of foodstuffs which, if found adulterated, result in imposition of heavy fines on their sellers.

7 Maternity and Child Welfare Centres and 7 Sub-Centres function in the district. Besides, there are 7 self help Nurse *dais* and traind *dais* centres in the villages These are managed by the Public Health Societies formed in the villages. District Red-Cross Society gives special grants to the societies to maintain the centres.

There are 6 rural dispensaries and 7 subsidised dispensaries under the control of Public Health Department. 24 Key villages are attached to the Rural dispensaries, *i.e*, 4 villages to each dispensary under the Key villages scheme sanctioned by the Government Out of these villages, 7 villages have started regular dispensaries under the charge of dispensars under the control of Health Societies formed for the purpose. The pay of dispensars is met by the villagers themselves by public subscription. Medicines worth Rs. 100 are supplied by the Government to each rural dispensary.

Action to train suitable girls under the rural Social Medical Scheme sanctioned by the Government has been started in the district. These Women Social Health Workers will form a link between the ignorant masses and expert medical and health workers.

Education and Literacy.

The following table shows the number of various kinds of institutions in the district, together with the bodies who maintain them :—

	Govt.	D. B.	M. B.	Aided.	Un-aided	Un-recog nised	Total
High Schools.	3	12	..	5	15	...	35
Middle „	..	68	...	...	6	...	74
Primary „	1	194	10	7	2	1	215
Total	4	274	10	12	23	1	324

In addition to the above the Government is maintaining one Training Institution and 4 Social Education Centres in the district. One Social Education Centre is maintained by the Municipal Committee, Ludhiana, while 2 such centres are maintained out of the funds of the District Literacy League. Besides there are 7 Colleges in the district.

According to 1951 census, the percentage of literates in this district is 36·7 (males) and 24·1 (females).

Agriculture and Co-operation.

Ludhiana is an important agricultural district situated in the middle of the Punjab State. Total cultivated area of the district is 744,271 acres, out of which 309,895 acres is irrigated and the rest of the area is *barani* (rain fed). The district is thus mostly *barani*.

The soil of the district is of great variation, ranging from heavy clay to purely sand dunes. All kinds of soils are, however, well used by growing normal crops on average soils and groundnut crop on sandy-loam to light-loams. Wheat, maize, cotton, sugarcane, *jowar bajra*, and groundnut are the main crops of this district. The area under improved types of crops evolved by the Department of Agriculture is increasing day by day. Vegetables like potatoes, cauliflowers, *arbi* and peas *etc.*, are abundantly grown all round the towns of the district.

The land is irrigated mainly by Sirhind canal and by means of wells. Latest water-lifting appliances like pumping

sets and tube wells are also becoming very common. With the increase of irrigational facilities the Tractor cultivation is becoming popular especially in the Bet areas where big pieces of land have been allotted to the refugees. There are 90 tractors and 310 pumping sets in this district at present.

There is a State Agricultural Research Institute and an Agriculture College located at Ludhiana. There are two farms attached to the institution, one is a student farm of 50 acres and the other is a research farm of 462 acres. They carry out research work and also deal with the local problems of the State for helping the cultivators. A tractor training class has also been started at Ludhiana for training interested cultivators and tractor owners in this line.

Following types of Co-operative Societies function in this district :—

Type of Co-operative Society		*Number*
Credit-Central	..	5
Credit-Primary Agricultural	...	545
Credit-Primary non-agricultural	...	41
Supply and sale stores	..	1
Construction	...	1
House building	..	1
Thrift and savings	...	65

Multi-purpose agriculture	..	5
Multi-purpose non-agriculture	..	5
Dairy	...	1
Prevention of economic knowledge	..	1
Total :	..	1,076
	..	

Industries.

Ludhiana is well knowu as the biggest centre in India for hosiery goods such as jerseys, lady coats, blouses, shawls, etc. These articles not only meet the demand of our country, but are also exported to foreign countries such as Ceylon, Nepal, Iraq, Burma, Indonesia, British East Africa and Pakistan. Delhi, Calcutta, Bombay, Banglore are the main markets in India for these goods. There are about 1000 places in Ludhiana where hosiery industry is being carried on. It employs about 7,000 workers every day. It is a seasonal industry and it works for about 8 months in a year. After the partition this industry had some set-back, because most of the muslims migrated to Pakistan but now this industry is flourishing again because the displaced persons have taken up this work and have attained skill in it.

The second important industry in this town is cycle spare parts and hosiery machines making. This industry has made a great progress after the partition. Most of this industry is located in Millerganj. There are about 150 places where this industry is carried on. It employs about 225 persons each day.

The third industry in this town is textiles, which is carried on both by hand looms and power looms. There are about 300 textile works in this town employing 1800 persons.

Besides, there are a number of small industries like foundries and general repair shops, which engage more than 500 persons every day.

Government is also doing a lot for the development of industries in this town. Many institutions like Government Hosiery Institute, Government Dyeing and Calico Printing Institute, Government Vocational Training Centre, etc., have been opened where a large number of boys are trained in these crafts. Government have also advanced loans to displaced persons to set up these industries in this area and this has been a very successful policy.

Hosiery and textile goods are also manufactured in rural area by people in their leisure hours.

Local bodies and Panchayats.

There are six local bodies in this district as below :

District Board	...	1
Municipalities	...	4
Town Committee	...	1

There are 456 notified panchayats which cover 507 out of 923 revenue estates in the district. All the panchayats are elected according to the rules framed by the Government.

There are 2 Panchayat Officers, and 3 Assistant Panchayat Officers in this district.

Rehabilitation of displaced persons.

According to 1951 census, total number of displaced persons who have settled in this district is 169,267.

Out of 20,639 evacuee houses, 20,621 have been allotted to displaced persons and out of 11,094 sites available for allotment, 8,482 have been allotted to the displaced persons. A sum of Rs. 155,255 has been distributed as grants for the repair of wells and construction and repair of houses to the displaced persons. The total amount of taccavi loans distributed up to 31-3-1951 amounts to Rs. 2,714,765. A sum of Rs. 4,54,000 has been distributed as loans to 52 displaced persons for the purchase of tractors during the year 1951-52. A sum of Rs. 35,000 has been distributed for the boring of wells. A sum of Rs. 30,670 has been distributed as loans to displaced persons for construction of houses in the flood affected villages during the year 1951-52.

Out of about 113,470 standard acres of evacuee land, most of the land has been allotted to 16,972 displaced persons on quasi-permanent basis.

Places of interest.

Ludhiana.

Ludhiana, the principal town and the headquarters of the district, is situated on the ridge just over the Budha nala. This place has become much renowned because of its hosiery, cycle spare parts and textile industries. A great deal of business is done in its bazars and markets, where traders throng from far and near places. The principal public buildings and offices are the Municipal Hall, the Post Office, Dak Bungalow, Police Station, Tahsil and Telegraph Offices, which all lie near the entrance ofthe Chaura bazar, just outside the town to the west, and the Railway Station. To the west of the Railway Station and behind the district offices is a *rakh*, or planation, under the District Board.

Machhiwara.

The Municipal town of Machhiwara (in Tahsil Samrala) lies on the ridge over the Budha Nala, about 20 miles east of

Ludhiana. The place was so named because of the variety of fish that could be found in the Nala near it. It is known for Sikh Gurdwaras like Charan Kanwal, Chubara Sahib.

Bhaini Sahib.

It is situated at a distance of about 14 miles away from Ludhiana on the Samrala road. It is a sacred place of *Namdhari*. Sikhs.

Chhapar.

It is situated at a distance of 17 miles from Ludhiana near Ahmadgarh A big fair is held here every year on the epitome of the Hindu God (Googa). This is one of the biggest fair in the State.

Sudhar.

It is situated about 18 miles from Ludhiana on the Mandi-Mulanpur Raikot Road. There is a famous Sikh Gurdwara named Gurusar. Recently a rural college has been built at this place.

Qilla Raipur.

It is situated about 11 miles south of Ludhiana. Near the town is situated 'Devipuri', where a great fair is held on the day of 'Shiv Chandish'.

Bahlolpur.

It is situated at a distance of 27 miles from Ludhiana in tahsil Samrala and is a place of historical importance.

Jagraon.

Jagraon, a Municipal town and the headquarters of the tahsil of that name, lies 24 miles west of Ludhiana, on the Ludhiana-Ferozepore Road. It is the second town in importance in the District. The town has a considerable trade in grains, brass and copper utensils, and cloth.

Khanna.

It is a small Municipal town in tahsil Samrala, 26 miles south east of Ludhiana. The objects of interest here are the ruins of the old fort and of an imperial *sarai* built in the time of Aurangazeb, in which a part of the town is built; also a *baoli* of brick, dry and in ruins.

Statement explaining the tables of a District Census Handbook.

In the 1951 Census, in addition to the sorting of the slips to produce the tables, essential Census information relating to every person enumerated in every village and every town/ward has been incorporated in a National Register of Citizens which has been preserved as an unpublished administrative register for purposes of reference during the inter census decade.

Some changes have been made between the procedures for tabulation adopted at the 1931 and earlier censuses and at the present census. These are explained below :—

1. Substitution of Economic Classification for classification based on Religion :—

In the past, Census slips were, at the very out set sorted on the basis of religion, and the figures of population by religion thus obtained were the basis of village statistics. The separation of slips by religion and sex was maintained throughout the sorting operations; and thus certain Census characteristics were cross-tabulated by religion. During the present census, the slips have been sorted in the first instance, into the following eight livelihood classes of the population:—

Agricultural Classes:—

I. Cultivators of land wholly or mainly owned and their dependents.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land; agricultural rent receivers and their dependants.

Non-Agricultural Classes.

Persons (including dependants) who derive their principal means of livelihood from :—

V. Production other than cultivation.

VI. Commerce.

VII. Transport.

VIII. Other services and miscellaneous sources.

The resulting figures have been given in the Primary Census. Abstracts which serves as the basis for village statistics.

2. The Concurrent 10 % Sample :—

The age (sample) tables have been prepared from the enumeration slips by taking a 10 % sample, out of the population excluding the displaced persons. Separate figures for displaced persons are given in the Handbook in all important tables.

3. Preservation of Census Records and Registers.

In the past, the abstract (first prepared in the process of sorting and compilation) was used for compiling village statistics, which were retained as unpublished administrative records by same States and printed and published by others. At the present Census, the following data are included in the District Census Handbook and printed and published as such :—

i. Introduction to the District Census Handbook.

ii. District Census Tables (furnishing district data with break up for census tracts, within the district.)

iii. Census Abstracts ; (a) Primary Census Abstracts (b) Occupational Abstracts and (c) Census Abstracts of small scale industries. The following tables have been included in the handbook.

A. General Population Tables.

I. Area houses and population.

(The area figures given in this table have been supplied by the Deputy Commissioner of the district and hence do not tally with the area figures maintained by the Survey Department. Number of houses are those which were found to be occupied at the time of house numbering by the revenue staff ; unoccupied houses do not figure in the table.)

II. Variation in Population during fifty years.

(The population figures given in this table for the previous censuses have been adjusted, taking into considration the adjustment of enclaves during the period 1941—51. Population of areas transferred to and/or from each tahsil have been added to or subtracted from the population of that tahsil for the censuses 1901 to 1941.)

III. Towns and Villages classified by Population.

IV. Towns classified by population with variation since 1901.

V. Towns arranged territorially with population by livelihood classes.

(In this table figures for livelihood classes I to III have not been given separately but have been clubbed together.)

B. Economic Tables.

I. Livelihood Classes and Sub-classes.

(Non-earning dependants in this table mean economically passive persons, *i. e.*, who do not earn anything ; and earning dependant implies a person who is semi-active, *i. e* whose earnings do not suffice his living and who has, therefore, to depend upon others ; self-supporting persons mean economically active persons, *i. e* ; who do not depend upon others, and are at least able to maintain themselves.

II. Secondary means of livelihood.

(Non-earning dependants do not have secondary means of livelihood. An earning dependant is maintained partly by the income of some other person and partly by his own ; the source which gives him some income is taken to be his secondary means of livelihood for purposes of this table. A self-supporting person may have more than one means of livelihood in some cases ; the second best source of income has been given in this table as his secondary means of livelihood.)

III. Employers, Employees and Independent Workers.

(The self-supporting persons in non-agricultural classes have been classified in this table as Employers, Employees and Independent Workers and are distributed in the various divisions and sub-divisions of Industries and services. The fly-leaf of this table gives the number of self-supporting persons who are economically passive, *e.g.*, persons living principally on pensions, remittances, scholarships and funds, inmates of jails, asylums, almshouses and beggars and vagrants. To economise paper and labour no space has been provided in the table for those divisions and sub-division in which no self-supporting person falls.)

C. Household and age (sample) tables.

I. Household (size and composition).—This table has not been published in the handbook.

II. Livelihood Classes by Age Groups.

III. Age and Civil Condition.

IV. Age and Literacy.

V. Single year Age-returns.—(Infants below 1 year of age have been shown under the age 0'.)

D. Social and cultural tables.

I Language.—This table has not been published in the handbook.

II. Religion.

III. Scheduled Castes and Tribes.—(The fly-leaf of this table gives the number of Anglo Indians which have been included in the figures of Christians in Table D-II.)

IV. Migrants - (The fly-leaf of this table gives the number of people born in countries outside India but enumerated in this district.)

V. Displaced persons.—(For Census purposes a displaced person was taken to mean "any person who has entered India having left or been compelled to leave his home in Western Pakistan on or after the 1st March, 1947, or his home in Eastern Pakistan on or after the 15th October, 1946, on account of civil disturbances or the fear of such disturbances or on account of the setting up of the two Dominions of India and Pakistan." But some persons, who had migrated to India from Western Pakistan even before 1st March, 1947, returned themselves as displaced persons at the time of Census taking for the simple reason that they had left their immovable property in Pakistan : such persons have also been included in the definition of 'Displaced Persons').

VI. Non-Indian Nationals.—(This table was not prepared in the previous censuses : it has been based on a suggestion made by the U. N. Population Commission).

VII. Livelihood Classes, by Educational Standards.

(This table is also new and is designed to show the distribution of educated man-power among the different livelihood classes).

E. Summary figures by districts.

(This table furnishes selected data by Tahsils/tracts in the district. The area figures given in this table have been furnished by the Deputy Commissioner of the district and the 1941 popluation figures has been given after giving effect to the adjustment of enclaves).
